OUR NEXT REGULAR MEETING WILL BE **FRIDAY, FEBRUARY 13th, 2026**

**6:30pm Set Up/Social Time - Meeting starts at 7:00pm**

RailPictures.Net - Image Copyright SpeedShot Train Photography

### WHEN & WHERE WE MEET

The North Coast Division holds 10 meetings a year (none in July and August). Meetings are on the **2nd Friday of each**

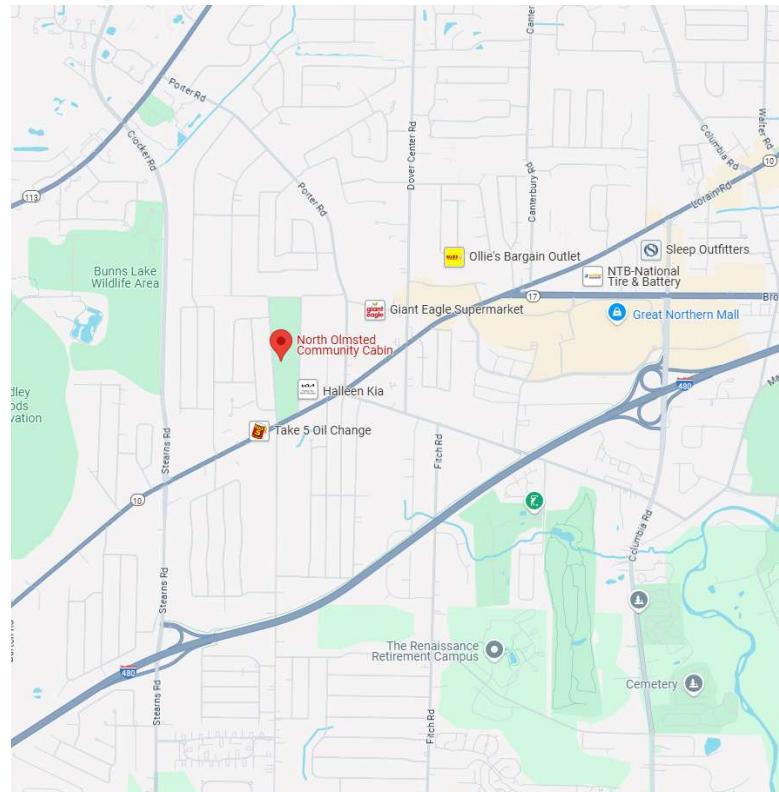

**month.** A set up/social half hour starts at 6:30 p.m. followed by a short business meeting at 7:00. After a short break, a railroad themed raffle and clinic complete the typical agenda. Starting January, 2025, the meetings are held at the **North Olmsted Community Cabin**, 28114 Lorain Rd, North Olmsted, OH 44070. Visitors are welcome to attend any meeting.

The Division's newsletter, *The Flatwheel* is published monthly (except during July and August) by Division 4 of the Mid-Central Region (MCR) of the National Model Railroad Association (NMRA). All comments are welcome.

Views expressed in *The Flatwheel* do not necessarily reflect the opinion of the NMRA, MCR, or Division 4.

*The Flatwheel* is typically electronically published no later than the Monday preceding the monthly meeting. **Submissions are due no later than the 26th of the prior month**, for example, August 26th for the September *Flatwheel*.

# GREETINGS FROM THE CAB

Greetings from the cab

This month's article will be rather short.

T-5 and counting until the Dayton Regional Convention. Please consider to registered for the convention. Early bird registration has ended, so it is full price now. I am looking forward to a good time in Dayton.

Div. 4 Awards Dinner was great! Big thanks Bert, Cris, and Patti for a job well done! I am looking forward to next year. Congratulations to Chuck, Bram and Dave for receiving the Bill Cramer/Dennis Novak award. A honor well earned.

This month is pizza night. So that should be a fun time as well.

The election committee has at least one person signed up for all positions. It is not too late to submit your name for one of the officer or director's positions. Great way to serve the division. Just see a member of the committee.

Just a reminder to sign up the Division 4 op-sessions. This will be a great opportunity to enjoy some of the Division 4 layouts. More on that to follow by special emails.

Well, the train is pulling into the yard and another run is over.

That's all I have for this month.

# MODULE GROUP

Greetings Fellow Model Railroaders!

Wild Winter Lights has finally concluded. This must have been one of coldest year at the Cleveland Metropark Zoo for the modular group. Things will be quiet until the Avon Lake Library which is scheduled for Saturday, March 7th and Sunday, March 8th. There will be plenty of space for members to come and work on projects during the display. Think of it as a return of TRAINing Day.

Be sure to come on out and see us at any of the upcoming events. As always, anyone interested in joining the module group, please contact me at [woo3482@hotmail.com](mailto:woo3482@hotmail.com).

Until next time!

# CONTEST TABLE

The January contest news is a little thin this month due to the fact that there was no January contest. The reason being, of course, there was the Awards Dinner. A tip of the hat to all those who planned and worked to make the evening very enjoyable. The food was good, the conversations were warm, and the raffle was fun.

The February contest is "Project 20". A small rural station that, in HO scale, can not have a footprint larger than 20 square inches. The 20 square inch maximum applies to just the building. Platforms are not part of the 20 square inch mandate. These stations can be straight kits, kit bashed, or scratch built. They can be two stories with the tower on the second floor and the station below it on the first floor. The 20 square inch mandate is measured at the point where the building touches the ground. Overhangs can be beyond 20 square inches. Let's see what you come up with. The March contest is a second generation diesel. These four or six axle diesels that were purchased from the original owners but now carry the colors and name of its current owner. The name can be your free lanced railroad name or it can carry the name of a real short line railroad that did exist or still currently exists.

That's all I have for now, so I'm going to throw another log on the fire, watch some train videos, and forget about what's happening outside my window on this cold, winter night.

Joe Filipiak

# CLINICS

## FEBRUARY

February is member appreciation night otherwise known as Pizza Night!!.. As is customary, I have some videos to watch as you enjoy your pizza. As I write this, we are experiencing 10" of snowfall and extreme cold, I found some great videos featuring railroading in winter. Snow plows, snow blowers, snow sheds in areas such as Donner's Pass and Marias Pass.

## MARCH

March is OPEN. If you have a clinic or subject you'd like to present please contact me.

## FUTURE CLINICS

I'm always looking for Clinics. I'm currently looking for clinics to schedule for the February 2026 and beyond. If you have a topic you'd like to present please contact me. If you need help putting a clinic together, let me know and I can help you put one together and help get points toward your AP certificate. If you have a topic you would like to see presented, let me know.

# Golden Spike Work Session

## NEXT SESSION

On January 17th we held our second work session. This session was all about weathering freight cars. A variety of techniques and materials were presented and available for members to try and to use.

Based on the discussions with attendees, upcoming topics will include hands on decaling and DCC decoder installation and programming

We will hold one more work session before summer. We will continue to hold them at the Strongsville branch library, as room availability permits. The next session has not been yet. Look for an announcement soon.

If you would like to attend, please contact Jerry Krueger at [jktrains@yahoo.com](mailto:jktrains@yahoo.com) . As with prior sessions, attendance will be limited.

# Road Tripping

## Jerry Krueger

A discussion item over the summer was how to increase opportunities for Division members and increase member participation outside of monthly Division 4 meetings. One way to do this is to make members aware of other model railroad activities. While the Division cannot provide transportation to these events, we encourage members to carpool and coordinate travel to them.

# ABOUT US

We are Division 4 of the Mid-Central Region of the National Model Railroad Association. (DIV-4 MCR NMRA).

With more than 200 members from Cuyahoga, Erie, Huron, Lorain and Medina counties in the state of Ohio.

The North Coast Division meetings are normally held on the second Friday of the month, to hear guest speakers, share skills, have railroad related clinics, and to share common problems and successes. Many of us get together informally in round-robin sessions to operate and work on each other's layouts, or just talk railroads and modeling.

Caboose 0505 was Myron's assigned caboose. He was the second senior conductor at Durango at that time. The senior conductor was Al Lyons, who was working the Silverton passenger train that day. Even in 1965 this was old time railroading with steam, wooden cars and a weed
