

DIVISION 4 STRAIGHT MODULE KITS

Division 4 offers kits for four foot straight modules that conform to NMRA Module Standards. These kits are pre-cut and pre-drilled where necessary. Wiring harnesses are pre-assembled. Illustrated assembly instructions are included.

The standard kit comes complete with all wood parts pre-cut, all hardware, wiring harness, DCC cab bus cable, and C-clamps.

The flat top module kit is the same as the standard kit except a full flat top is substituted for the strip sub-roadbed.

Also available are accessory kits:

Cab Bus Panel – for an additional \$25

Module ends, pre-cut from 18mm plywood with clamp holes and ledger notches.

Hardware only kit containing all the hardware and wiring harnesses necessary to build a four foot straight module.
